### Reasons of Allowance

#### The Status of Claims

Claims 1-11 are pending.

Claims 1-11 have been allowed.

With respect to the consideration of reissuing the application , applicants have added the newly changed limitation of d=0-2 in claims 1 and 11 of the instant invention, the examiner finds that the specification sufficiently supports it.

I. The following is an examiner's statement of reasons for allowance:

- The close reference for the current invention is Suzuki et al (JP06-293695.

Suzuki et al teaches a method of producing acetic acid by reacting ethylene with oxygen and water in the presence of palladium metal catalyst containing at least one kind of chromium, vanadium, molybdenum and tungsten; for example, Pd-Mo-H<sub>3</sub>PO<sub>4</sub>.

The instant invention, however, differs from the prior art in that the claimed catalyst system requires Mo<sub>a</sub> Pd<sub>b</sub> X<sub>c</sub> Y<sub>d</sub> catalyst unlike the prior art 's Pd-Mo-H<sub>3</sub>PO<sub>4</sub> catalyst system. In addition, unless all limitations of the claims are met, there is no prior art rejection. See In re Zurko 59 USPQ 2d 1690 (Fed Cir. 1991) and In re Lee, 61 USPQ 1430 (Fed Cir. 1991).

Therefore, the claimed invention would not have been obvious to the person with an ordinary skill in the art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning the communication after allowance such as sending all post-allowance correspondence should be directed to "Box Issue Fee" or faxed directly to PUBS at 703-305-8755. This will expedite the process of these papers.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only.
